NAU’s 2006 sophomore students

The students at Northern Arizona University value their faculty. Whether it is sophomores, graduating seniors, or alumni, students consistently rate their satisfaction with the quality of NAU’s faculty above ninety-five percent. For the last three years, the Office of Planning, Budget, and Institutional Research has conducted an annual Sophomore Survey. On this survey students are asked *“If any member of the NAU faculty or staff has positively influenced your experience at NAU, please complete the following information.”* Students are then asked to provide a name, department and comment. The following is a summary of the data collected on this one question; and the attached report lists all the comments from the students regarding faculty and staff.

Out of the 507 students that participated in the 2006 sophomore survey, 270 students (53%) provided one or more names of a faculty or staff member that has positively influenced their experience at NAU. A total of 288 compliments were made about 187 individual faculty / staff members. The table below summarizes the names and departments of the five faculty / staff members that were acknowledged the most by the 2006 sophomore class.

Most Acknowledged Faculty / Staff 2006 Sophomore Survey	
Name	Department
Matthew Fahy	Mathematics & Statistics, faculty
Troy Hutchings	COE: Division of Student Services, staff
Kathleen Carpenter	COE: Division of Student Services, staff
John Wettaw	Chemistry and Biochemistry, faculty
Sylvester Allred	Biological Sciences, faculty

While most of the complements were for faculty and academic areas, acknowledgement was also given to non-instructional areas such as Administration and Finance, Gerontology Institute, Ecological Restoration Institute, Financial Aid, Multicultural Center, NAU Bookstore, and Residence Life.

Numerous comments were regarding faculty / staff members who are approachable, caring, dedicated, and excited about their subject matter. Several comments were related to how a faculty member had gotten the student so enthusiastic about course material that they looked

forward to each class. Many faculty / staff were recognized for providing career advice and being positive role models. Several students credited a faculty or staff member for assisting them with finding solutions to personal problems that allowed them to stay in school.

The office of Planning, Budget and Institutional Research has been reporting on this question since 2004 resulting in three years of student comments. Deserving particular accolade are the 26 faculty / staff members who have been mentioned by at least one student every year of this study. These 26 faculty members and their departments are listed on page 4 of this report.

On the following “2006 On-Line Sophomore Survey Faculty / Staff Comments” report, please note that if a student provided multiple names with one general comment, the student’s comment was duplicated.

		Frances Hill	<i>Very personable, caring, cares about her students</i>
		Johnathan Hales	<i>He has helped open new doors for me</i>
		Johnathan Hales	<i>Makes students work to achieve good grades, by several homework assignments. He also assigned a book to read that I really enjoyed. He has gone above and beyond to get guest speakers into our class. He really seems to understand his subject and how to get the students to understand it. Plus, he cares. That is important.</i>
